

MYSTERY PICTURES

Here we are again then, two more of Mr Weaver's intriguing pictures to torment you with!

The more of Mr Weaver's photographs that I scan, the more impressed I become by the scale and variety, and the distances travelled. I was very taken with these two, which show a horse drawn trip boat. How about this arrangement then?

The boatman rides in a cart drawn by a pair of horses, with the tow rope attached to the cart!!

I've got you this time!
