The Alvecote Gathering

Princess Anne now looking resplendent in her new steel cabin and livery. She retains her wooden bottom which was comparatively newly fitted

Bream winds during the parade. It was in the course of this manoeuvre that he won civil engineering award!!

L to R: Paul Barber, Malcolm Burge, Roger Fuller collecting the prize on behalf of Glyn Phillips and Paul Ayers

Ray Butler writes:

The Sunday parade was rained off, so propmaster was on a smaller sample than usual. The winding was complicated by the positioning of a buoy in the middle of the basin, which surprised a number of participants.

Propmaster was won by Paul Barber (**Whitby**) for the 3rd year running. Paul celebrated with a lap of honour on the Monday during which he delicately positioned the boat to allow Viviee to plant flowers on the buoy.

The Les Lapworth award for best turned out working boat (by popular vote) was awarded to **Aquarius** (Glyn & Ro Phillips, well deserved in their 50th year of ownership). Runners up were **Swan** (Mary Gibby) and **Emu** (Michael Pinnock)

A special Civil Engineering award was presented to Paul Ayres (**Bream**) for modifications to the Barlow car park during the Saturday parade!

The customary ovation went to the Burge family and all the staff at the Barlow and the marina for giving us such a magnificent weekend
